DEAR FRIENDS,

In the March of 1849 I was enabled, through the kindness of the Editor of the Times, to make an appeal on behalf of the Gutter Children of our great cities. This appeal was handsomely responded to, and the £1,000 and £2,000 and £5,000 and £10,000 and the money that came from every part of the world, came into our ownership. I have come before you again, my dear friends, to ask you for another sum of money, and the money that is needed for the maintenance and the education of the children in our schools, and the money that is needed for the comfort and the amusement of the children in our schools, and the money that is needed for the comfort and the amusement of the children in our schools.

I have come before you again, my dear friends, to ask you for another sum of money, and the money that is needed for the maintenance and the education of the children in our schools, and the money that is needed for the comfort and the amusement of the children in our schools.

At this time of the year, when the weather is cold and the days are short, we need the money to help us through the winter months. The children in our schools are happy and contented, and they are learning and growing in knowledge and understanding. The money that we need will help us to provide for the comfort and the amusement of the children in our schools, and the money that we need will help us to provide for the comfort and the amusement of the children in our schools.

Thank you for your generosity and your kindness. May God bless you and your families and friends.

Yours sincerely,
